

Sintercom IPO to open on February 5, price band at Rs 63-65 per share

Ahmedabad, Automotive component maker Sintercom India will open its NSE Emerging SME initial public offering for

OEMs like Maruti Suzuki Limited, Mahindra & Mahindra Limited, Bajaj Auto Limited, and Fiat India Automobiles Private Lim-

scription on February 5, with a price band of Rs 63-65 per share. The initial public issue of 65,46,000 equity shares consists of a fresh issue of 30,16,000 equity shares and an offer for sale upto 10,31,213 equity shares by Victoria Stock-Invest Private Limited and upto 24,98,787 equity shares by Maurill Industries Limited.

The offer also includes a reservation of upto 50,000 shares for eligible employee and upto 3,34,000 shares for subscription by Market Maker. The issue will close on February 7 and the anchor allocation is scheduled a day before the issue open i.e. February 2.

The company's products are used in the commercial and passenger vehicles. Currently, Sintercom caters to

ited told Jignesh Raval MD Sintercom.

Incorporated in the year 2007, Sintercom is engaged in manufacturing of sintered metal products, machining, and assembly of metal components and is currently engaged in the business manufacturing sintered metal automotive components of engines, transmissions systems, body chassis and exhaust applications using sintering manufacturing processes.

Pantomath Capital is the book running lead manager to the offer while the registrar to the offer is Link Intime India Private Limited.

Applied DNA, GHCL and Reliance Industries, launch CertainT recycled PET in Bedding Products

Mumbai, Applied DNA Sciences, Inc. announced it is collaborating with GHCL Limited (listed on NSE and BSE), a global manufacturer of home textiles, and Reliance Industries Ltd. (RIL), India's largest private sector company and the first to feature in Fortune's Global 500 list of 'World's Largest Corporations' - to launch CertainT® verified recycled PET ("rPET") bedding products at New York Home Fashions week, to be held from March 19 to 22, 2018.

Fully source-verified, recycled polyethylene terephthalate (PET post-consumer) is the clear plastic best known for packaging bottled water, and is the most widely recycled plastic in the world. GHCL will use Applied DNA's CertainT platform in connection with PET- and/or recycled PET-blended bed sheets, pillowcases, and shams sold in-store or online in the United States. RIL is collaborating with GHCL and Applied DNA as the preferred fiber-manufacturing partner to use the CertainT platform

for authenticity of recycled PET in bed sheets, pillowcases, and shams.

RIL, the largest integrated producer of polyester fibre and yarn in the world, manufacturers the most ecofriendly fibres in the world, Recron® Green Gold Fibres and Recron® Green Gold Dope-Dyed (EcoD) Fibres & Tow, which are manufactured via ecofriendly processes of the highest standard. These fibres have been granted the "Global Recycle Standard" from the internationally recognized Control Union Certificates, Netherlands.

Mr. Hemant Sharma, Sector Head - Polyester, RIL said, "RIL is the only company that has created a complete circle from creation of PET resin for making bottles, collection of discarded PET bottles, and converting them to Recron Green Gold Eco Friendly Polyester fibres for use by the downstream textile value chain that converts the fibres in to apparel and home textiles."

Mr. Sharma continued, "Recron® Green Gold fibres

and tow demonstrate the lowest carbon footprint number and meet the most stringent environmental criteria for being a green fiber. The collaboration with Applied DNA and GHCL for making forensic science based Recron® Green Gold fibre further bolsters our trust on quality and persuasion for highest standards." "Consistent with global sustainability and the circular economy, we provide the first fully source-verified recycled PET bedding product line using CertainT, Applied DNA's proprietary traceability system that tags, tests, tracks the original r-PET pellets to finished products," said Manu Kapur, President and CEO of GHCL Home Textiles.

"We produce a wide range of synthetic yarns from polyester, viscose and other high-end yarns which now utilize the CertainT system for full traceability. The ability to source and buy CertainT yarns made from verified recycled PET fiber is a unique offering that GHCL can provide to customers globally."

GHCL operates its home textiles facility in Vapi in the state of Gujarat, India. The facility overseas the production process from spinning to weaving to finished processed fabric, which is then made into duvet sets, sheet sets, comforters, to name a few.

As one of the leading manufacturers in home textiles in India, the plant boasts an annual production capacity of 36 million meters of finished fabric per annum. GHCL's home textile products are predominantly exported worldwide to USA, UK, Australia, Canada, Germany and other European Union countries as well. On October 25, 2017, GHCL was presented with the Golden Peacock Award for Excellence in Corporate Governance in London, UK.

"CertainT does what no other system can do - we can tag every single fiber and verify them through a defined and secure supply chain through systematic sampling, testing and tracking," said Dr. James Hayward, president and CEO of Applied DNA.

NOTE :
1. The above is an extract of the detailed format of Quarterly unaudited Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing and Other Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Stock Exchange websites, www.bseindia.com and company's website www.rolcon@rolconengineering.com.
2. The company adopted Indian Accounting Standards ("Ind AS") from April 1, 2017 and accordingly these financial results have been prepared in accordance with the recognition and measurement principles laid down in the Ind AS 34 Interim Financial Reporting prescribed under Section 133 of the Companies Act 2013 read with the relevant rules issued there under and the other accounting principles generally accepted in India. Financial results for all the period presented were prepared in accordance with the recognition and measurement principles of Ind AS 34. The date of transition to Ind AS is April 1, 2016. The impact of transition has been accounted for in opening balance sheet as at April 1 2016 and the results for the subsequent period would get finalized along with the annual financial statement for the year ended March 31, 2018. In terms of the relaxation provided vide SEBI's circular No: CIR/CFD/FAC/62/2016 dated 5th July, 2016 the financial results for the previous year ended 31st March 2017 are not Ind AS compliant.
3. Basic and diluted Earning per share is calculated on total comprehensive income.
4. Reconciliation between financial results previously reported (referred to as Previous GAAP) and Ind AS for the quarters /year presented are as under.
