AI to double innovation rate in India by 2021: Study

New Delhi, Artificial Intelligence (AI) is expected to more than double the rate of innovation and employee productivity in India by 2021, said a new Microsoft-ICD study on Monday.

While only one-third of organisations in India have embarked on their AI journeys, those companies that have adopted this technology expect it to increase their competitiveness by 2.3 times in 2021, said the study that surveyed 200 business leaders and 202 workers in the country.

"Economies and businesses that have yet to embark on their AI journey run a real risk of missing out on the competitive benefits that are enjoyed by leaders," said Rohini Srivathsa, National Technology Officer, Microsoft India. According to the findings, India needs to build upon its investment, data and strategy in order to accelerate its AI journey. The study also underlined the need for cultural changes and skilling and re-skilling workforces to make AI work for the country. The rise of AI means that there was a necessity for workers to re-

skill and upskill to remain relevant and play a part in the workforce of tomorrow, Srivathsa said. "The jobs of today will not be the jobs of tomorrow, and we have already seen demand for software engineering roles expand rapidly beyond just the tech sector," Srivathsa added. To help developers and organisations build expertise in Cloud computing, data sciences, AI and Internet of Things (IoT), Microsoft on Monday also announced the roll out of the "Week of AI", a specially curated five-day workshop series.

Finance Ministry starts groundwork for fresh bank consolidation

New Delhi, By Subhash Narayan
The next wave of bank consolidation is planned during the October-December quarter of the current fiscal with the Finance Ministry starting to seek information from PSBs on possible targets for amalgamation/mergers and acquisitions with justification on how such an initiative will synergise operations and strengthen the bank.

Government sources said that heads of all public sector banks (PSBs) have been asked to be ready with their consolidation plan so that it could be placed before the alternative mechanism (AM) of the new government as soon as it is formed. The AM, or a group of Ministers under former Finance Minister Arun Jaitley, was created in 2017 to fast track consolidation and help create strong and competitive banks, serving as catalysts for growth, with improved risk profile and one that can exploit economies of scale. "The next round of bank consolidation may take place in the third quarter of FY20 as enough room has to be given to PSBs to correct their balance sheets (in the first half of current fi-

cal) before embarking on mergers as only this would ensure that resultant entity is strong and credible," said the source quoted above. Last year, the AM approved the proposed merger of Vijaya Bank and Dena Bank with Bank of Baroda (BoB) that has become effective from April 1, 2019. In 2017, the State Bank of India absorbed five of its associates and the Bharatiya Mahila Bank. This year, the consolidation exercise is expected to revolve around Punjab National Bank (PNB) to take some smaller PSU banks under its ambit. The names of Syndicate Bank, Oriental Bank of Commerce, Andhra Bank and Allahabad Bank is being considered for the merger. However, a final call would be taken only after both acquirer and the target bank come up with their respective proposals to the Finance Ministry.

Informed sources said the move would add muscle to a big bank like PNB, which has just emerged from a dark phase of fraud by diamond merchant Nirav Modi and also has posted profits. The buzz is also that banks such as Union Bank of India and Bank of India (BoI) may be called upon to give

their views on the exercise. In March this year, there was also talk of a merger between PNB, Syndicate Bank and Indian Overseas Bank. Before that speculation was rife about a possible merger of all Delhi headquartered banks: PNB, Punjab & Sind Bank and Oriental Bank of Commerce.

The government has been nudging the state-owned lenders to go for merger so that there can be fewer and stronger banks.

The Finance Ministry wants banks to undertake an internal exercise for the best match and then come up with the merger idea. This plan would have to weigh various aspects including regional balance, geographical reach, IT compatibility, financial burden and human resource transition. GoDaddy's new solution targets small businesses in India

New Delhi, Internet names and registrations management major GoDaddy on Monday said it launched a new Internet solution for small business owners and entrepreneurs in India that can allow them to go online with an investment of less than Rs 3 per day. The new solution, Online Starter Bundle, comes with a choice of domain extensions between .in and .co.in for businesses. "Our aim is to help ensure more online adoption among Indian businesses, by giving them easy-to-use and affordable products to turn their dreams into reality online," Nikhil Arora, Vice President and Managing Director, GoDaddy India, said in a statement. The Online Starter Bundle solution which promises a seamless experience across phone and desktop offers a starter one-page website, along with an email account, enabling people to easily bring their ventures online. GoDaddy offers an integrated suite of products for small business owners and entrepreneurs, ranging from domain names, hosting, website building, to email marketing, security protections and an online store.
