Business

some breast cancers: Study

Researchers, including one of the Indian-origins, have found that a microbe found in the colon and commonly associated with the development of colitis and colon cancer also may play a role in the development of

some breast cancers. The study, published in the journal Cancer Discovery, suggests that breast tissue cells exposed to this toxin retain a long-term memory, increasing the risk for disease.

In a series of laboratory experiments, researchers discovered that when enterotoxigenic Bacteroides fragilis (ETBF) was introduced to the guts or breast ducts of mice, it always induced growth and metastatic progression of tumor

cells.
"While microbes are known to be present in body sites such as the gastrointestinal tract, nasal passages and skin, breast tissue was considered sterile until

New York, s, including ian-origins, recently," said senior author Dipali Sharma, Professor of oncology at Johns Hopkins Medicine in the US.

The study is a first step to show the involvement of ETBF in breast cancer development, Sharma says.

According to the team, additional studies are needed to clarify how ETBF moves throughout the body, whether ETBF can be a sole driver to directly trigger the transformation of breast cells in humans, and/ or if other microbiota also have cancer-causing activity for breast tissue.

"Despite multiple established risk factors for breast cancer, such as age, genetic changes, radiation therapy and family history, many breast cancers arise in women harboring none of these, indicating the need to look beyond," Sharma said.

"Our study suggests another risk factor, which is the microbiome. If your microbiome is perturbéd, or if you harbor toxigenic mifunction that could be considered an additional risk factor for breast cancer," she added.

For the study, the team performed several experiments to study the role of ETBF. First, they performed a meta-analysis of clinical data looking at published studies comparing microbial composition among benign and malignant breast tumors and nipple aspirate fluids of breast cancer survivors and healthy volunteers.

B. fragilis was consistently detected in all breast tissue samples as well as the nipple fluids of cancer sur-

In the lab, the team gave the ETBF bacteria by mouth to a group of mice. First, it colonized the gut. Then, within three weeks, the mouse mammary tissue had observable changes usually present in ductal hyperplasia, a precancerous condi-

tial recovery at more that 18

Gut microbe may promote SAP invests Rs 500 cr in India to boost multi-Cloud offerings New Delhi, make commerce frictionless added.

Enterprise software major SAP on Thursday an-nounced to invest Rs 500 crore in India to offer customers a multi-cloud choice.

With one of the largest and most diverse businessto-business cloud portfolios, SAP India is a leading cloud company that is aggressively working toward addressing local customer demands.

"SAP intends to advance the vision of Atmanirbhar Bharat by leveraging an ag-ile and scalable cloud technology that is co-developed in India and now made available in local data centres to help Indian enterprises recalibrate their businesses to run better," said Kulmeet Bawa, SAP Indian Subcontinent President and Managing Director.

The software solutions major last year launched SAP Commerce Cloud and S/4 HANA Cloud on their India data centre to help Indian enterprises meet endto-end customer demands.

Hiring activity in the

month of December de-

clined by 10 per cent vs the

last year, the findings

While Bengaluru (-1 per cent), Pune (-2 per

cent), and Hyderabad (-5

per cent) were less im-

pacted given the growing

demand for IT profession-

als in the virtually con-

nected world, cities such

as Mumbai (-25 per cent)

and Delhi (-18 per cent)

saw a decline in hiring ac-

while ensuring compliance with the Personal Data Protection Bill.

"SAP's commitment to support India's growth vision remains a top priority, and we are determined to achieve this with deeper collaboration with our customers, ecosystem and the government," said Scott Russell, President, SAP Asia Pacific Japan.

Underscoring its commitment, SAP will make available its multiple cloud solutions in India data cen-

"Our investment in India is toward accelerating the nation's digital agenda and our customers' transformation in the cloud," Russell

SAP said it is prepared to respond to local market re-

quirements and help enterprises harness their data faster to become future SAP appointed former

Adobe executive Bawa as President and Managing Director for the India subcontinent in July last year.

Bawa hás beén tasked with driving and delivering the SAP experience for employees and customers across the ecosystem as well as guide businesses in India, Bangladesh and Sri Lanka.

ŠAP's end-to-end suite of applications and services are currently enabling lakhs of business and public customers globally.

Tax sops for Covid hit Aviation Sector may come in Budget 2021

New Delhi,

Ahead of the Budget 2021, the government has hinted at rationalization of various taxes in the aviation sector, which is among the hardest hit by the Covid-19 induced economic meltdown."We are working on a long-term plan to help the sector by rationalizing various taxes. We are looking forward to make the ecosystem smarter and more efficient to make the aviation sector sústainable," said Usha Padhee, Joint Secretary, Ministry of Civil Aviation. Addressing a webinar on "Connecting the Dots-Recovery of aviation, tourism and hospitality" on Friday, she underscored the need for the sector to be geared for any challenges and said that policy rejig will also help it in the long run, if it is hit by a similar crisis in the future. The webinar was organised by Women in Aviation International - India Chapter. Highlighting the success of Udan scheme, she further added: "Though the pandemic has adversely impacted the aviation and allied sectors, yet we have managed to take steps towards recovery. We are systematically opening the air space for operations and the air bubbles have helped aviation sector to get 60 per cent capacity of domestic sector back."

sequential hiring with increased consumer demand during the year-end period.

Other key sectors such as BFSI (+18 per cent), Pharma/Biotech (+28 per cent), FMCG (+21 per cent) and IT-Software (+11 per cent) too have shown positive growth in hiring.

"Key sectors like hospitality, travel, auto and retail are still bouncing back, and the sequential numbers reassure us of robust recoveries in 2021," said Pawan Goyal, Chief Business Officer, Naukri.com.

"As we look forward to a brighter year ahead, the overall hiring sets in the right direction for the closing month.

Reliance Infra completes sale of entire 74% shareholding in Parbati Koldam

be seen on-line.

Mumbai,

Reliance Infrastructure Limited (RInfra) on Saturday announced the successful completion of sale of its entire 74 per cent equity stake in Parbati Koldam Transmission Company Limited (PKTCL) to İndia Grid Trust (IndiGrid) for an enterprise value of Rs 900 crore. RInfra owns 74 per cent in PKTCL located in the state of Himachal Pradesh and Punjab in joint venture with the Power Grid Corporation of India Limited (PGCIL). The deal was announced in November 2020 with the signing of a definitive binding agreement between RInfra and IndiGrid and has now been completed with transfer of shares of PKTCL, and receipt of sale consideration.
