Oman's largest cement manufacturer, Raysut Cement Company (RCC), which has plans to invest about US\$700 million in India, has received CE and NF certifications, two stringent global quality norms validating RCC's adherence to EU standards in cement production.

The Muscat Stock Market (MSM)-listed RCC said the certifications come at a time when it is expanding exports to newer global markets. Currently, 50 per cent of the company's output is exported to East Africa, India, Maldives, South Africa, and Indian Ocean islands.

Mr. Salim bin Ahmed bin Alawi Al Ibrahim, Acting Deputy Group CEO of RCC said: "The cement now produced at RCC's Salalah plant has accomplished the strictest environmental criterion of Hexavalent Chromium (Cr6+) content of less than two parts per million. The NF certification also opens up new market opportunities

a superior quality cement brand to the French colonies in the Indian Ocean Reunion

Last year RCC won the `CEO of the Year' honour for the company's Group CEO Mr. Joey Ghose, at both the Oman Best Employer Awards and GCC Best Employer Awards from Employer Branding Institute, which reinforced the company's excellence across leadership, health and safety, technology, training and talent management.

"We consider CE and NF certifications as a testimony to our commitment to constantly improve product quality and processes in line with rigorous global safety, quality and environmental regulations," said Group CEO,

Joey Ghose. RCC has also been certified by BIS (Bureau of Indian Standards), enabling it to stabilize its presence in the Indian market as a quality brand. It also has a certificacan All Brothers Products and Systems). The CE and NF certifications, apart from an endorsement that will help RCC export to European markets, will also ensure proven quality product supplies to

Indian market. The (ConformitéEuropéenne) mark, formerly EC mark, is mandatory for selling certain products in the European Economic Area (EEA) since 1985. The NF Mark from AFNOR certification entity is a French compliance norm that ensures product safety, quality, usage ability and per-

RCC exports 240,000 metric tonnes of cement every year to India while it is also looking at acquiring cement plants in the country. In 2020, RCC exports to India were to the tune of 200,000 metric tonnes. RCC also last year acquired 75 per cent of Lafarge's Thilafushi terminal in Maldives to be closer to the India market.
